

How to Connect KORONA POS

The following steps must be performed to connect to KORONA POS and import your product into mapAds.

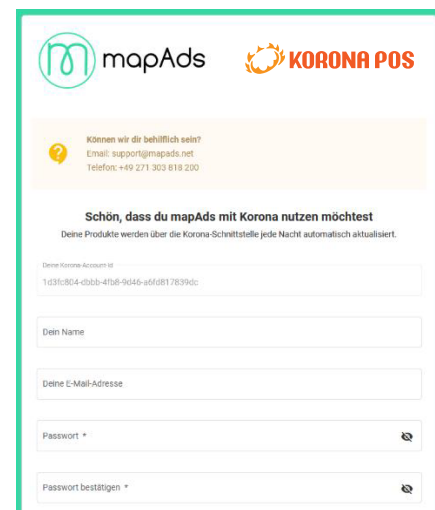

Activate mapAds via KORONA POS

- Log in to your KORONA POS Cloud
- Via **“Settings”** and Data **“Exchange,”** you can enter **“mapAds”** in the search bar and press **“Add.”**

- The mapAds widget is added to the list.

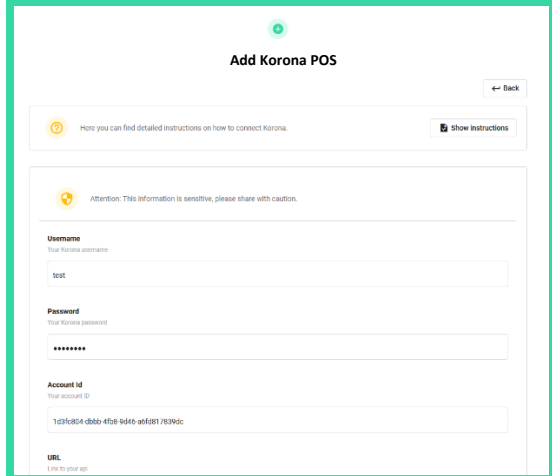

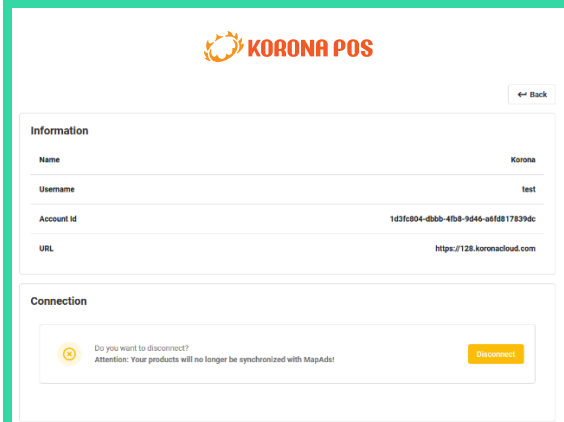

- The button **“To mapAds”** will redirect you to the mapAds domain where you can then register.

- Done!** - All products that you have tagged with the keyword **“mapAdsPromotion”** will be synchronized with mapAds every night.

Connect KORONA POS via mapAds

- You need to activate the widget in KORONA POS as described above.
- Navigate to the **overview**.
- Click on **"Add new system"**
- Click **"Add"** on Korona POS
- Enter your KORONA POS information in the form and click **"Connect."**

- You will now find KORONA POS among your connected systems.

- Done!** - All products that you have tagged with the keyword **"mapAdsPromotion"** will be synchronized with mapAds every night.
